Einfach Schön & Vollkommen Entspannt

Räume für Körper und Seele

Germany, Austria, Switzerland, South Tyrol

Immerse yourself in the world of wellness. In hectic everyday routines, people increasingly long for places that invite them to relax and allow them to concentrate fully on themselves, their bodies and their personal needs. No matter whether in beauty salons or in the barbershop, whether in a SPA or wellness hotel.

But how are places designed in which customers can rest completely in themselves. To what extent can materials and colours influence our sense of well-being? Do I feel differently comfortable in a barbershop with brick walls than in a thermal spa with soft colours and light interior? In about 50 projects from Germany, Austria and Switzerland, it is shown in which rooms we should spend our few precious moments of everyday life. Be part of this colourful journey through the most beautiful rooms of „Einfach Schön & Vollkommen Entspannt.“ (“**Simply Beautiful & Completely Relaxed**”)
