Malbuch. Von den Pyramiden bis heute.

Mit informativen Geschichten aus ihrer Geschichte.

We encounter architecture everywhere in our daily lives. Sometimes it is better, sometimes it is worse. This coloring book shows some of the best and most prominent examples from the history of architecture. It shows what people found beautiful and how this changed over the millennia. Styles have changed, construction methods have improved.

This coloring book is for young and old. With 49 illustrations, it offers an overview of the history of architecture. Coloring the highlights since the pyramids helps to grasp essential features in a playful way, promotes concentration and brings relaxation. The short texts provide a first approach to understanding architecture. The quick overview in chronological order serves as a grid for later, more detailed knowledge.
